

# Waterborne floor finishes from the specialist

## LOBA® WS EasyPrime

The waterborne sealer - exceptionally economical for all types of domestic and exotic woods.

- Easy lap mark free results
- Excellent build and filling
- Reduces side bonding
- Non-yellowing
- VOC compliant - qualifies for LEED credit EQ 4.2

## LOBA® WS Viva

The waterborne finish for residential floors.

- Good wear resistance
- Excellent build through high solid content
- Water clean-up
- No lap marks or streaks
- VOC compliant - qualifies for LEED credit EQ 4.2

## LOBA® WS EasyFinish

The one-component waterborne finish for high traffic residential and light commercial floors.

- Better wear resistance
- Reduces side bonding
- No lap marks or streaks
- Non-yellowing
- VOC compliant - qualifies for LEED credit EQ 4.2

## LOBA® WS 2K Supra

Two-component commercial finish for extremely high traffic areas.

- Best wear resistance
- Excellent build through high solid content
- No bubbling, beautiful leveling and flow
- Non-yellowing
- Perfect for cork floors because of high elasticity
- VOC compliant - qualifies for LEED credit EQ 4.2

## LOBA® WS 2K Contact

Dust Free Recoating System:

- No sanding necessary, no special machines, no dust
- Great for distressed and hand scraped floors
- Easy to use: clean – contact – coat!
- VOC compliant - LOBA® WS 2K Supra qualifies for LEED credit EQ 4.2
