

Impregnated smoothing cement

Maintenance LOBA Cleaner (cleaning)
LOBA WaxCleaner (caring)

Intensive cleaning LOBA ParkettSoap

First cleaning LOBA Cleaner

Maintenance **Cleaning**
Dry-clean your floor by using mop, broom or vacuum cleaner. Dirt and dust have the same effect as sanding paper and thus are to be removed instantly. Damp-mop your floor if required (e.g. in case of heavy stains, spots, etc.) using LOBA Cleaner.

Caring

Use LOBA WaxCleaner instead of LOBA Cleaner alternately each third cleaning process. The floor will be simultaneously cleaned and cared.

Intensive cleaning Manual or mechanical stripping procedures are only necessary if the floor shows heavy stains which can not be removed by maintenance cleaning. We recommend the usage of LOBA ParkettSoap.
